

SWETTENHAM'S
FINISH IS NEAR

Thought in London that Jamaican Governor's Career Will Wind Up Suddenly and Soon

SECRETARY OF NAVY
MAKES STATEMENT

Says Rear Admiral Davis Was Not Without Precedent in Landing Relief Party at the Capital City of Jamaica.

LONDON, January 24.—The colonial office has received several cablegrams from Governor Swettenham explaining the incident involving Rear Admiral Davis, but not one is of such character that the authorities will make it public.

The foreign office says it has no further communication from Washington and that with the receipt of President Roosevelt's telegram through Assistant Secretary Bacon, the international side of the question is regarded as settled.

It is possible, however, that when Swettenham's explanation is received in full there will be further communication with Washington. The Associated Press gained the general impression at the foreign office today that Swettenham's career is at an end.

Reports from Governor Swettenham today gave out two reports received from the governor on conditions in Jamaica. Sir Alexander says that up to date five hundred bodies have been buried in addition to a number of remains that could not be distinguished or identified.

The governor estimates that two hundred bodies are still buried in the ruins and that it will probably take a year to remove all the debris. The main streets of Kingston have been cleared, street car lines are in operation and the people today are living in outhouses and less damaged buildings. More than 3,000 homeless are living in temporary huts. The number of homeless ones is decreasing as work is plentiful and many people have been given free passage out of the city.

There are still four hundred patients in the hospitals and many injured are being treated in their homes by relatives and friends. Slight shocks continue but the weather remains fine.

Foreign Secretary Gray today sent the following reply to Mr. Bacon through Esme Howard, charge of the British embassy at Washington: "Please express to the assistant secretary of state my thanks for his message. The friendly attitude of the president and the American government is warmly appreciated by his majesty's government."

Swetty Loosens

KINGSTON, January 24.—Governor Swettenham has addressed a letter to John F. Stevens, chief engineer of the Panama canal, thanking him for the supplies sent him from the isthmus by the steamer Advance. The governor said: "Convey my grateful and hearty acknowledgments to the citizens of the United States and the officials and employees of the canal commission who so promptly testified their sympathy with suffering Kingston."

Consul Gives Details

William H. Orett, American vice consul here, has published a letter setting forth the facts relative to the landing of marines from the American warships under the command of Admiral Davis. The letter follows: "I met Rear Admiral Davis at headquarters and introduced him to Colonel Secretary Bourne. The admiral offered his services to land immediately such supplies and food as were needed and to detail all his men to help generally. While in the midst of this interview the deputy inspector general arrived hurriedly and reported to the colonial secretary that there was a general mutiny at the penitentiary and added that it could be quelled only with an armed force.

"The aid of the American admiral was invoked and he arranged that a party be landed at once. The admiral in the presence of the colonial secretary, the deputy inspector general and myself, gave instructions to his flag lieutenant to return at once to the flagship to order the Indians to anchor off the penitentiary, and to land an armed party and other parties the authorities might need.

"Only a small guard was landed with the working party which saved the archives at the consulate and when these men had completed their work they joined the general working party. Everything that Admiral Davis did was with the full knowledge and consent of the authorities.

"Conditions are slowly improving. There is no scarcity of food. Cash allowances to the needy are being made by the archbishop and the relief committee. There are two thousand people destitute and without homes. Many bodies are being recovered daily. Forty were found yesterday. The exact number of bodies buried or cremated is not known, but will probably reach six hundred. There is great consternation here as a result of a cablegram from London saying all insurance companies disclaim losses incurred as a result of the earthquake and fire.

"The earth shakes continue, but they are not severe."

Archbishop Sends Thanks

WASHINGTON, January 24.—President Roosevelt tonight received a cable-

gram from the Most Reverend Dr. Nuttall, lord archbishop of the West Indies and chairman of the Kingston relief committee, extending thanks for the prompt aid of the American warships of Rear Admiral Davis. The message says: "We appreciate deeply American sympathy in our distress and the prompt visit of your men of war for our succor.

"Happily, the supply of food available for the relief committee is sufficient. After meeting the cost of this our next great want will be the means for making the small houses habitable. All our people are behaving splendidly."

Davis Had Precedents

The receipt today of the full text of the correspondence between Rear Admiral Davis and Governor Swettenham, which did not differ from the communication transmitted by the Associated Press, caused naval officials to study the situation to see if Davis had in any way transgressed the bounds of propriety on his visit to Kingston. They not only found a precedent for his landing to preserve order, strangely enough in the case of another British island in the West Indies, but also saw nothing in the affair to warrant the letter addressed to him by Swettenham.

Had Asked for Help

Secretary Metcalf this afternoon gave out the following statement bearing on the subject: "The department has received the full text of the correspondence between Rear Admiral Davis and Sir Alexander Swettenham.

"From this correspondence it appears that the admiral landed a party of six to guard and secure the archives of the American consulate and another party of ten men for the purpose of clearing away wreckage. Later on at the earnest entreaty of the colonial secretary and inspector of police, who spoke for the governor, who was absent from the city, men were landed under arms to overawe an alleged mutiny at the penitentiary, containing five or six hundred prisoners. The admiral proceeded in his carriage to visit the governor at Kings house and found him living with his family in tents. He was accompanied to the city by the governor. The same afternoon on request of the governor the men were withdrawn from shore and returned to their ships.

Landed at Trinidad Once

"The action of Admiral Davis in landing under the circumstances is not without precedent, there being numerous cases to justify it, one of which was the action of Rear Admiral R. W. (Continued on Page Six)

MINING FRAUDS
TO BE PREVENTED

Councilman Doran Introduces Bill to Prohibit Misrepresentations of Mining Companies

QUIET DAY IN THE
LEGISLATIVE HALLS

Both Houses Agreed on Clerk Question—Morgan of Pima Will Not Take Seat—To Ask for Home Government.

Special to the Silver Belt.

PHOENIX, Ariz., January 24.—The business of the legislature today was confined to less than an hour's session. Bills were introduced in the council by A. J. Doran of Yavapai for preventing mining frauds by misrepresentation and the bill also compels companies to expend 75 per cent of the proceeds of the sale of their treasury stock in actual development work. Another bill introduced by Mr. Doran is to prevent the dissolution of corporations except by a vote of the majority of stockholders, and not then if there is pending litigation or claims against the company.

A. V. Grossetta of Pima in the house brought in a bill to appropriate the salary for Judge Campbell from March 3, 1905, to June of that year to correct an error of a former act which did not cover that period. There also was a bill by Grossetta to amend the law for the prevention of cruelty to animals, making the offense a misdemeanor.

A house memorial was introduced by W. D. Bell of Maricopa asking for self-government for Arizona, including the privilege of electing all its officers and judges except chief justice, the territorial judges to have jurisdiction in territorial cases and the chief justice in federal cases. L. S. Williams of Coconino introduced a resolution of sympathy with California in the San Francisco-Japanese school controversy.

Agree on Clerks

Both houses are apparently agreed on the following appointive office salaries to be paid out of the territorial funds: An assistant chief clerk for each house, assistant enrolling and engrossing clerk for each house, journal clerk for each house, speaker's clerk, president's clerk, six committee clerks for the house and four for the council, governor's clerk and secretary's clerk. This is the form of joint resolution which goes to the governor tomorrow. It is unofficially but definitely stated that David Morgan of Pima will not take his seat in the house.

Railroad Appeals

By Associated Press. ST. PAUL, Minn., January 24.—The order of yesterday enjoining the officers of the Great Northern railroad from issuing new stock has been appealed to the supreme court.

COUNCIL NAMES
CITY OFFICIALS

C. C. Carico Is Made Marshal Last Night, Sparks Receiving Only Two Votes.

ELLIOTT AND HILL,
CLERK AND ATTORNEY

North Globe Taken into the City in Spite of Strenuous Objections—Council Passes Three New Ordinances.

The election of a city marshal by the council last evening overshadowed all other business on hand, as expected, and as predicted in these columns, a dark horse carried away the most remunerative job in the gift of the council, C. C. Carico, a Republican and formerly justice of the peace for this district, being selected.

The election of city officials was the first business which came up last evening and there seemed to be a disposition to have this duty disposed of in a hurry. First came the selection of a city clerk and F. J. Elliott was chosen by a unanimous vote. The same occurred when the name of George R. Hill went before the council for city attorney.

Only two nominations were made for marshal, Alderman Murphy presenting the name of William Sparks and Alderman Martin that of C. C. Carico. There were no other nominations and Mr. Murphy asked that the petition of Mr. Sparks be read. It contained the names of a large number of citizens, but it was evident that the reading of this formidable document would not improve the chances of Mr. Sparks. It looked like a Carico colored slate.

There was some discussion as to the manner in which the vote should be taken, Mr. Murphy favoring an open ballot and others a secret one. A motion was carried to make the choice by a secret ballot and when the slips had been gathered and counted, the vote stood, Carico 3 and Sparks 2, Mayor Sultana not voting and Alderman Gibson being absent.

There were two nominations for supervisor of streets, R. G. Goodwin and W. H. Hiatt. The vote stood 4 to 1 in favor of Goodwin, Alderman Murphy voting for Hiatt. It was decided that all of the officers should give a temporary bond until surety bonds are secured for them.

North Globe Annexed

A petition was presented in which a majority of the taxable property of North Globe was represented asking that North Globe be annexed to the city of Globe. A resolution which had been prepared by City Attorney Hill was read, but before action was secured on it, Andrew Maurer of North Globe made an objection to the annexation, basing his claims on the illegality of the act. Mr. Maurer was shown where his authority was wrong and on motion of Alderman Woods the question was put and carried by a unanimous vote. The city attorney was instructed to prepare an ordinance effecting the annexation.

Vacate Part of Street

W. H. Butler, appearing in behalf of certain property owners on Broad street, petitioned the council to vacate that part of the east side of Broad street between the First National bank and the Del Monte restaurant, which had been done some time ago by the board of supervisors, and that the council instruct the mayor to give the petitioners a deed for the same. A resolution granting the request, at a price of \$10 per lot for three lots involved, was unanimously passed.

Three More Ordinances

After a short recess the council passed three ordinances as follows: No. 8, preventing dogs from running at large; No. 9, for the abatement of public nuisances, and No. 10, establishing a pound.

New City Officials

F. J. Elliott, the newly appointed city clerk, is one of the well known members of the bar of the county and a member of the law firm of Weinberger & Elliott. He is counted among the brightest members of his profession in the city and will make an excellent clerk and treasurer. George Hill, the city attorney, has been for a number of years one of the leading members of the Gila county bar. He served one term as district attorney and, like Mr. Elliott, he is a Republican.

C. C. Carico, the city marshal, is exceptionally well fitted for the duties of his office, which are more in the nature of tax collector than a police officer. He served a term as justice of the peace, being elected on the Republican ticket. He has been a resident of Globe for the last eight or nine years. B. G. Goodwin, who was made supervisor of streets, was appointed by the council last October. He is well qualified for the position, as he is conversant with the city's needs along the lines of street improvement.

Body of Midshipman Arrives for Interment

SAN DIEGO, Cal., January 24.—The gunboat Yorktown of the Pacific squadron arrived today with the body of Midshipman I. M. Hayne, who died on board the Charleston on the 20th inst. Hayne was 23 years of age and had recently come from the academy. His home is at Greenville and his body will be forwarded there tomorrow.

Blizzard in North

ST. PAUL, Minn., January 24.—Railroad men report another much more severe blizzard raging over North Dakota. Railroad traffic is at a standstill.

Weather Prediction

WASHINGTON, January 24.—Forecast for Arizona: Generally fair Friday and Saturday.

ALL PENSION AGENCIES CONSOLIDATED IN ONE

By Associated Press. WASHINGTON, January 24.—The house today voted to abolish all pension agencies throughout the country, eighteen in number, and to centralize the payment of pensions in Washington. Action was taken on the pension appropriation bill after spirited opposition on the part of those having pension agencies in the states.

By a vote of 58 to 114 the amendment offered by Dalzell of Pennsylvania restoring the number of agencies to eighteen, as at present, was defeated and then the amendment offered by Gardner of Michigan, consolidating all agencies in one, was adopted without division. The pension appropriation bill carrying \$138,000,000 was passed.

A message from the president was read relative to insurance and at 2:30 o'clock, out of respect to the memory of the late Senator Alger of Michigan the house adjourned.

LARGEST RANGE CATTLE COMPANY IN WEST SOLD

By Associated Press. BELLEFOURCHE, S. D., January 24.—The Franklin company, the largest range cattle company in the west, has sold its entire herd of 80,000 cattle and will go out of business. E. H. Harriman, the railroad magnate, is a member of the firm and a director of the cattle company. The rapid settlement of the range by homesteaders is given by the cattle company as the principle reason for going out of business.

ASKS REQUISITION FOR ARIZONA DEPUTY

By Associated Press. PHOENIX, Ariz., January 24.—Governor Kibbey today issued a requisition on the Governor of California for H. L. Noble, under arrest in Los Angeles charged with embezzlement. Noble was a deputy sheriff of Coconino county when the crime is alleged to have been committed.

SHONTS TELLS OF THE CANAL WORK

Retiring President of Commission Makes Speech in Kansas City

KANSAS CITY, January 24.—Theodore P. Shonts, who yesterday resigned the chairmanship of the isthmian canal commission, was the guest of honor this evening at the monthly dinner of the Knife and Fork club of Kansas City. In an illustrated address he gave a record of the work done to date on the canal.

"The creative period," declared Mr. Shonts, "has come to an end and the period of active construction has begun. As to the manner in which the creative task has been performed we are content to let the facts speak for themselves."

In closing Mr. Shonts quoted as follows from Roosevelt's message, written after the chief executive returned from the isthmus: "The wisdom of the canal management has been shown in nothing more clearly than in the way the foundations have been laid."

Shonts earlier in the day denied that his resignation resulted from any disagreement with Roosevelt or any member of the commission, and declared that the best relations existed between himself and all of his canal assistants. He left for New York late tonight.

WITHOUT FOOD FOR TEN DAYS

Eighteen Japanese Seamen Are Rescued from Wreck and Horrible Experience

By Associated Press.

VICTORIA, B. C., January 24.—Eighteen shipwrecked Japanese seamen taken from the sinking Japanese schooner Kayama Maru, about two hundred miles off the Japanese coast, were landed here today by the steamer Tydian, which reached port from Liverpool via the orient. The Japanese had been without food for ten days and lived on a few grains of rice scraped from the hold. They were emaciated and suffering from lack of food and water. The schooner had been blown off shore in a gale and was drifting when the Tydian sighted her. When the Kayama Maru was abandoned Captain Campbell set fire to her to remove the derelict from the path of shipping.

Body of Midshipman Arrives for Interment

SAN DIEGO, Cal., January 24.—The gunboat Yorktown of the Pacific squadron arrived today with the body of Midshipman I. M. Hayne, who died on board the Charleston on the 20th inst. Hayne was 23 years of age and had recently come from the academy. His home is at Greenville and his body will be forwarded there tomorrow.

Blizzard in North

ST. PAUL, Minn., January 24.—Railroad men report another much more severe blizzard raging over North Dakota. Railroad traffic is at a standstill.

Weather Prediction

WASHINGTON, January 24.—Forecast for Arizona: Generally fair Friday and Saturday.

FIVE JURORS TO TRY HARRY THAW

Long and Tedious Session Results in Three More Selections in Famous Case.

UNWRITTEN LAW OR EMOTIONAL INSANITY

Either or Both May Constitute Defense—Prisoner's Mother Not in Court Yesterday—Talesmen Not So Anxious.

By Associated Press.

NEW YORK, January 24.—Three new jurors to try Harry K. Thaw for the murder of Stanford White were secured today. This result was attained during the closing hour of an extremely tedious session. When court adjourned for the day five jurors, including the two chosen yesterday, had been accepted and sworn in. Thirty-two talesmen in all were examined. The three jurors chosen today are Henry C. Harney, piano dealer; George Pfaff, dealer in machinists' supplies, and Arthur A. Campbell, superintendent of telegraph and telephone construction.

Not Anxious to Serve

The tedious manner in which the selection of jurors proceeded today makes it difficult to predict just when the trial panel of twelve will be filled. The court's order that the jurors must be kept together under the care of a bailiff had the effect of making many of the talesmen reluctant to serve. Various excuses were offered today, one man declaring that to be locked up for two months would wreck his nerves as to make a calm consideration of the case an impossibility. He was excused. The nineteen talesmen examined yesterday and thirty-one today brings the total thus far called up to fifty.

Few Challenges Used

Of the thirty peremptory challenges each allowed the prosecution and defense, the former has used eight and the latter six.

The defense today seemed willing to accept any talesman who made reasonable answers to the district attorney's questions.

The fact that Thaw's attorneys asked several of the talesmen if they had any prejudice to any particular line of defense was taken to indicate that the defense might be either the so-called "unwritten law" or emotional insanity, or a combination of both. Thaw's attorneys again today offered no objection to the district attorney's questions as to whether or not the proposed jurors would be guided by actual law as laid down by the court to the exclusion of any fanciful law they might themselves import into the case. Each accepted juror promised to abide by the interpretation of the court.

Mother on Verge of Collapse

Mrs. Thaw, mother of the defendant, was not in court today. She is greatly fatigued by yesterday's long term and was on the verge of collapse last night. She remained in her apartments today. Other members of the family were in their accustomed seats behind the defendant.

Howard Nesbitt, a brother of Mrs. Harry Thaw, sitting well in the rear with the man who was Stanford White's secretary. Neither he or his sister looked at each other.

ANTI-CIGARETTE BILL A LAW IN MISSOURI

By Associated Press.

JEFFERSON CITY, Mo., January 24.—The house this afternoon passed the anti-cigarette bill by a vote of 100 to 22. The bill prohibits the sale or manufacture of cigarettes or cigarette papers. Under the provisions of the bill a man may make his own cigarettes without a violation of the law, but he can't give them away. Any violation of the law is punishable by a fine of \$10 to \$200.

The house today also passed the anti-lolobby bill amended last Monday to conform to the New York statute. It was then reported to the senate and given its first reading.

LEGISLATURE BARS BULLETIN

California Solons Have It in for San Francisco Evening Newspaper

By Associated Press.

SACRAMENTO, Cal., January 24.—The introduction in the senate of a resolution protesting against the naturalization of the Japanese as recommended by President Roosevelt in his message, a resolution requesting the interstate commerce commission to investigate the shortage of railroad cars in the state, a constitutional amendment by Senator Carminetti for an interim of ninety days in sessions of the legislature after the first twenty days in assembly, the exclusion of all representatives of the San Francisco Bulletin from the privi-

lege of the floor for the remainder of the session, were features of the session of the legislature today.

Senator Cortwright introduced a joint resolution requesting the interstate commerce commission to investigate the shortage of railroad cars, particularly cars for the transportation of oil, it being alleged that the shortage is due to manipulation on the part of the railroads, that it is being done to drive consumers back to the use of coal, particularly in Arizona and Nevada, by this means throwing upon the market thousands of barrels of oil for the purpose of prolonging the period of cheap fuel for railroad use.

JAPANESE ORGANIZE COMMERCIAL COMPANY

By Associated Press. SAN FRANCISCO, Cal., January 24.—What is said to be the largest Japanese commercial company in the United States has filed articles of incorporation with a capital stock at \$400,000. The organization is the North American Mercantile company and its purpose is to engage in real estate and manufacturing business of all kinds.

BOY SHOTS COUSIN AND THEN SUICIDES

By Associated Press. NEW YORK, January 24.—Sarah Kling, aged 18, was shot and killed today by her cousin, Meyer Schwartz, aged 17, at his home in Brook street. Schwartz then shot and killed himself. It is believed the boy and girl entered into a compact to die together because their parents objected to their fondness for each other.

NO HOPE OF RESCUE FOR ENTOMBED MINERS

By Associated Press. TRINIDAD, Colo., January 24.—All hope of rescuing the entombed miners at Primero has been abandoned. Owing to the wrecked condition of the mine the rescuers gain very slowly. The indications are that the explosion occurred many hundred feet back from the entrance.

C. & G. ALLOTS STOCK TO GLOBE

Ten Thousand Shares to Meet the Local Subscription of Thirty-two Thousand.

GEORGE S. ANDRUS MADE SUPERINTENDENT

Development Work Starts Immediately on Splendid Group Located in the Lower Pinto Country 17 Miles from Globe

Dr. T. Shields Collins received word yesterday from Michigan in regard to the allotment of stock for Globe of the Calumet & Globe Development company, the latest Globe flotation. The officials of the company allotted 10,000 shares to this city, the first call of \$2.50 to be paid at the Globe National bank before January 30.

There was a large demand for the new stock, Dr. Collins and D. D. Sullivan receiving requests for 32,000 shares of the stock. Consequently the various allotments were considerably cut down. There are only 60,000 shares of the stock, in view of which Globe did very well in receiving a sixth.

Word was also received that George S. Andrus of this city had been selected as general superintendent of the company, and Mr. Andrus has been instructed to begin development work immediately. Mr. Andrus, who is now at Kelvin on mining business, will be home Sunday.

C. & G. Property

The property of the company is one of the most promising in the Lower Pinto country. It consists of seven claims and two fractions located on the southwest side of Pinto creek, seven miles from Globe. There is a very strong showing on the Brewery claim, the lead being mineralized for 200 feet in width on this claim alone. The strike of the claim is east and west and it dips at a steep angle to the north. The lead is in diabase, with a hanging wall of limestone.

The development work which has already been done consists of a large number of small pits, tunnels and crosscuts, all of which expose a fair grade of ore, running better than 7 per cent in copper and \$3 to \$7 in gold per ton.

The main workings consist of a cross-cut tunnel into the lead, a drift on the lead of 75 to 80 feet and a crosscut from the end of this drift 45 feet long. The entire drift and crosscut are in 7 per cent ore. The Lead Home claim has another vein running northwest and southwest which it is believed will intersect the Brewery lead on the Stars and Stripes claim, an extension of the Brewery claim. The Lead Home vein is well defined and is 20 to 30 feet in width and carries high values in zinc and lead and fair values in copper and gold. The general opinion is that this claim will make a very large mine separate and distinct from the Brewery.

BLOODY BATTLE WITH THE YAQUIS

Mexican Troops Lose Twenty Men in Engagement Fought Wednesday Near Lencho.

INDIANS RETREAT CARRYING WOUNDED

Mexican Officials Say War of Extermination Will Be Carried on by the Troops in the State of Sonora.

By Associated Press.

EL PASO, Texas, January 4.—Reports were received today of a desperate battle between Yaqui Indians and Mexican troops, which occurred yesterday in the mountains southeast of Guaymas, Sonora, in the section of which is located the station of Lencho, which was raided and destroyed by Yaquis in December last. The Mexican troops have been hunting the Yaquis since the Lencho incident and have had frequent skirmishes with them, but not until yesterday were they able to force an engagement with any considerable force. In this fight twenty Mexicans were killed and a number wounded. The Yaquis were defeated with considerable loss, but as they took both their dead and wounded when retreating, it is not known how many were killed.

Will Exterminate Indians

Owing to the remoteness of the scene of conflict from lines of communication further particulars cannot be obtained tonight.

Representatives of the Mexican government here are without official advice as to the battle, but say that it is the purpose of the authorities of Sonora as well as of the national government to exterminate the Yaquis and that the military have been in constant pursuit of them with this in view and that a number of fights occurred recently.

MARSHALL FIELD LEFT SEVENTY-FIVE MILLIONS

CHICAGO, January 24.—The executors of Marshall Field's estate today filed with the probate court an inventory of the late merchant's possessions. The approximate value of the estate is placed at \$75,000,000.

DRAMATIC CRIME STARTLES LONDON

Famous English Merchant Shot to Death in His Place of Business

LONDON, January 24.—A dramatic tragedy startled London today when William Whiteley, one of the unique and most prominent figures in the business world, was shot dead in his store by a youth claiming to be his son. An unknown young man was secured a private interview with Mr. Whiteley in the latter's private office, where the two men remained closeted for a few minutes.

As Mr. Whiteley came out it was observed that the young man was following and importuning Whiteley and threatening to kill him. Suddenly the young man fired two shots at Whiteley, who fell dead. Before the assassin could be secured he turned the weapon on himself and indicted probably a mortal wound.

The personality of the assassin and the motive for the crime are enveloped in mystery. He gave his name as Cecil Whiteley, but relatives of Mr. Whiteley disclaim all knowledge of him. The police found no papers or other written matter on his person to lead to his identity. The police believe the attack was the result of a fancied grievance.

SAW BILLY STILES AND BURT ALVORD

Tucson Mining Man Says They Are in Mexico in No Danger of Arrest

By Associated Press.

PHOENIX, Ariz., January 24.—A special from Tucson says that a mining man recently arrived from Mexico and claiming personal acquaintance with Burt Alvord and Billy Stiles, the outlaws, saw them at Corral a few days ago at the head of a band. The local Mexican soldiers did not attempt to arrest them. Stiles is a fugitive from the Tombstone jail and Alvord after a short term in the Yuma penitentiary, ran away while sought on another charge. Both are perhaps the most notorious fugitive outlaws from Arizona at this time.
